SEARCH QUERY INTELLIGENCE & NEGATIVE KEYWORD GOVERNANCE

Deliverable 01 — Query Triage, Match-Type Precision & Exclusion Architecture

01 Executive Methodology & Staging Statement

[!] This audit was staged inside a live Google Ads console to demonstrate real-world query triage, match-type precision, and waste management methodology, **without exposing** Portfolio Demo **client data**. All campaigns referenced sit in a non-production sandbox and remain paused by design; every figure below is a portfolio-grade simulation intended to demonstrate audit rigor, not a live client outcome.

02 Audit Metrics & Impact Summary

\$48,250

SIMULATED SPEND AUDITED

Trailing 30-day window

\$12,410

PROJECTED WASTE IDENTIFIED

~25.7% of simulated spend

1,200+

QUERIES TRIAGED

Actioned this cycle

98.4%

MATCH-TYPE PRECISION

Post-remediation rate

03 Raw Search Query Triage Log sample rows · full log: 1,200+ queries

SEARCH QUERY	INTENT CLASSIFICATION	SPEND SIGNAL	RECOMMENDED ACTION	MATCH-TYPE DIRECTIVE
"buy macbook pro 16 inch"	High-Intent Commercial	High CVR	KEEP & SCALE	Promote to [Exact]
"free macbook pro pdf manual"	Zero-Intent Informational	\$0 Conv / Waste	NEGATIVE EXACT	Add [free] / [pdf]
"apple macbook repair store near me"	Non-Sales Service Query	\$0 Conv / Waste	NEGATIVE PHRASE	Add "repair"
"galaxy s23 ultra case leather"	Competitor Hardware Noise	\$0 Conv / Waste	NEGATIVE PHRASE	Add "galaxy"
"macbook pro trade in value"	Specialized Mid-Funnel	Positive CVR, wrong funnel	ISOLATE → DEDICATED CAMPAIGN	New ad group [Exact]

06 Strategic Governance SOP

standard operating procedure · bi-weekly cadence

RULE 01

Spend-Without-Conversion Trigger

Any search term accruing $\geq$ \$50.00 in spend with 0 conversions over a rolling 30-day window is flagged for mandatory triage within 48 hours of the scheduled audit.

RULE 02

CTR Decay Threshold

Exact-match keywords with CTR $< 60\%$ of ad-group average across 1,000+ impressions trigger a match-type review, not an automatic pause.

RULE 03

Match-Type Isolation Protocol

Converting broad/phrase terms are promoted to a dedicated exact-match keyword, then negativized at the source match type to eliminate internal auction cannibalization.

PRIORITY & CADENCE MATRIX — HIGHEST-IMPACT WORK FIRST

PRIORITY	OPTIMIZATION	FREQUENCY
P1	Search Term Audit	Daily
P1	Budget Pacing	Daily
P2	RSA Asset Review	Weekly
P2	Impression Share Review	Weekly
P3	Landing Page Testing	Monthly
